Pattern Notes

This is a top down triangular shawl beginning with a garter tab cast on. To achieve the triangular shape, 6 sts are increased on every RS row for the top garter stitch part of the shawl to lengthen the wingspan faster in the beginning. Lace panels are worked with no increases and followed by a garter stitch strip where 4 sts are increased on each RS row. The finished edging of the shawl will have a partial lace pattern, followed by 2 garter stitch rows.

Each side is maintained with a 3 st garter row on each side of the shawl.

Stitch markers can be used to separate pattern repeats. Remember to use a different color marker to denote the 3 garter sts at the beginning and end of the shawl and either side of the center st.

Special Techniques

Carrying CC: There is no need to cut the MC or CC when working the shawl. When changing colors, drop the working yarn and bring the new yarn behind the yarn just worked and start knitting the next row. If not changing colors, bring the working yarn under and then over the non-working yarn to catch it and begin working the next row.

Chart Reading

Because the piece is knitted flat, remember that RS rows are the **odd** numbered rows and are worked from right to left while the WS rows are the **even** numbered rows and are worked left to right. Chart below written directions.
